

Verbier will open its ski area this Saturday!

Téléverbier is pleased to announce the opening of several slopes! Over the past few days, the peaks of Verbier have been covered in a magnificent blanket of white, with over 40 cm of fresh snow at Lac des Vaux. The 2025/2026 winter season can therefore officially begin in ideal conditions.

From this Saturday, 1st November, the Lac des Vaux sector will be open, allowing skiers to make their first turns of the season. The opening of the Attelas–Ruinettes sector will be subjected to favourable conditions. Throughout November, the ski resort will only be open on weekends, before opening daily from 29 November.

Early risers will be particularly delighted: coffee and croissants will be offered to the first skiers to hit the slopes on Saturday morning. In addition, a 20% discount will be applied to the Verbier sector 1-day ski pass every weekend in November.
