An 8th Slope for the Verbier Bike Park

The Verbier Bike Park offers a full-length new slope that connects Savoleyres to La Tzoumaz.

The new trail, named «flow trail», offers 5 km of experience. It has the particularity of being twice as long as other slopes.

During its construction, special attention was given to

the way the trail fits into the landscape. The brand-new track adds another option for beginners along with the trail of les Ruinettes-Verbier.

Characteristics: vertical 680m/length 4.3km/highest point 2'320m/level beginner-Blue

A Guaranteed Ski-Connection Savoleyres to Verbier

This summer, important work regarding snow-making will be done in the sector of Savoleyres. These changes will be part of the third phase of the Connection project and will allow artificial snow on the slope of le Sud all the way to Les Esserts.

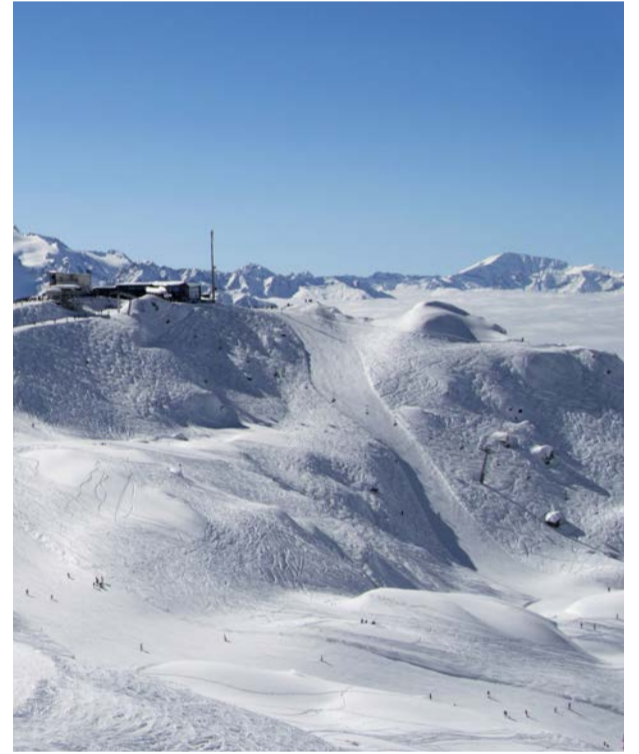

This way is particularly important because it is the only connection available from Savoleyres to the Verbier village when the Carrefour road is closed because of the avalanche danger, which is a frequent occurrence in the winter.

Rejuvenation of the Lac 1

After twenty years of great services and twenty millions of skiers transported, the chair-lift of the Lac des Vaux 1 will undergo an important change.

The entire electrical part of the lift will be replaced by new equipment.

For your comfort, all the chairs

The Direction Board's Word

We have had a terrific winter season 2018-2019. Snow and sun were present, particularly during periods of high influx. We were therefore, able to offer high quality skiing all season long. Additionally, the number of skiers and financial earnings increased compared to last year. Last year's season was a great year for Televerbier since the results met where higher than the average of the last five seasons.

We will soon begin phase #3 of the snow-landscaping of the Savoleyres and La Tzoumaz sectors. At the beginning of next winter, the slope, recently renamed «La Piste Philippe Roux», will be equipped with a new snow-making system which will guarantee the access back to Verbier by ski throughout the entire season.

Our Bikepark, open since June 7th, expanded with the creation of a new mountain bike trail connecting Savoleyres to La Tzoumaz. It will be accessible during the entire summer season.

As per usual, various events are offered such as : the Family Fest in la Chau, Sunrise at the Mont Fort, the first ever Verbier E-Bike Festival. These events happen on the sector while others happen in the village of Verbier : the Verbier festival, the Tour des Stations, the Jumping and the Verbier Bike Fest. The summer will be wonderful and we hope to count on good weather.

Have a pleasant summer !

Nakujabo in La Chaux on August 10th

Nakujabo is a local band from Monthey. They came together in 2016 and quickly found their groove in the writing of lyrics and composing their own songs.

As they were not able to choose between soul, reggae,

hip hop and even funk, they therefore, combined it all and created their own style.

The concert will begin at 2 pm on the big stage in front of La Chaux.

The Verbier Infinite Playground Pass (VIP Pass) is given freely to those staying minimum one night in the area who are paying their tourist tax.

The VIP Pass gives you many advantages in the resort such as public transportation, accessibility to the lifts, activities and animations and, of course the Verbier Festival.
